

# CONTROVERSIES

in the

# DATA SOCIETY

A seminar series of the Edinburgh Futures Institute in collaboration with the Institute for the Study of Science, Technology and Innovation

In this series of research-led seminars, leading researchers from across the University of Edinburgh will stimulate debate on issues that will shape the future 'data-led' innovation, from surveillance and justice to AI at work and 'fake news'.

- 15 Jan** **What's the problem with algorithms?**  
Prof Stuart Anderson, Dr James Stewart
- 29 Jan** **Consent? Are we breaking the limits of health data governance**  
Dr Claudia Pagliari, Dr Cate Heeney
- 5 Feb** **The future of anonymity in highly linked data systems**  
Prof Chris Dibben, Prof Burkhard Schafer
- 12 Feb** **What a picture reveals and hides: The use and misuse of data visualisation**  
Prof Paolo Quattrone, Dr Benjamin Bach
- 15 Feb\*** **More problems with algorithms, and how to make them legible**  
Dr Ewa Luger, Prof Lilian Edwards
- 26 Feb** **The Data Poor: Economic exclusion in the data society**  
Prof Jonathan Crook, Dr James Stewart
- 5 Mar** **Data, surveillance, values and resistance**  
Prof Sian Bayne, Ben Collier | Discussant : Prof Charles Raab
- 12 Mar** **Algorithmic Justice: controversies in policing and sentencing**  
Dr Richard Jones, Prof Burkhard Schafer | Discussant : Prof Charles Raab
- 19 Mar** **Propaganda, social media and "Fake News" in contemporary politics**  
Prof Laura Cram, Dr Robin Hill, Clare Llewellyn, Dr Rachael Craufurd Smith
- 26 Mar** **Developing a common research programme**  
Mapping the Controversies in the Data Society

Mondays 11:10-13:00 | 1 George Square (Neuroscience), G.8 Gaddum LT  
\*Except Thursday 15 February | LT1, 7 Bristo Square
